Subject: Mass Casualty Incident (MCI) Kits: Budget Inquire

Captain Soberon,

Just checking in with you...last we talked you mentioned there was some potential funds available to continue supplying patrol with Mass Casualty Incidents (MCI) Kits. What type of funds are available? I'd like to purchase a few new MCI kits. The price range per unit will be \$1700-1800 each. I have a sample of the new MCI kits from North American Rescue. It is the best designed kit in the industrial and it was just released. I have the only one in Florida...it would be nice to be the first City in the State to equip their patrol division with these kits.

Any interest?

Sergeant Gregory Tony
